Ethical hacking and Penetration Testing

Cybersecurity training platforms

Author: Kutlymurat Mambetniyazov (@manfromkz)

Identifying the goals of lesson

- Reviewing cybersecurity training platforms
- Reviewing certifications

Online platforms

Hackthebox

- https://www.hackthebox.com/

- Machines
- Challenges
- Pro labs
- Universities

TryHackme

- https://tryhackme.com/

- Rooms
- King of the hill
- Challenges (CTF)

Priviahub

- https://priviahub.com/

- Machines
- Scenarios

Root-me

- https://www.root-me.org/?lang=en

- Old, but gold challenges

CTFTime

- https://ctftime.org/

- List of CTF (Capture the flag) events

Standalone environments

- WebGoat
- OWASP Juicy Shop
- Metasploitable
- Vulnhub - https://www.vulnhub.com/
- Vulhub - https://github.com/vulhub/vulhub

Bugbounty platforms

- https://www.hackerone.com/
- https://www.bugcrowd.com/
- https://bugbounty.kz/
- https://www.openbugbounty.org/
- https://www.synack.com/
- https://www.intigriti.com/
- and etc.

Security certifications roadmap

- Hosted - https://pauljerimy.com/

- Github - https://github.com/PaulJerimy/SecCertRoadmapHTML

Any questions?
